## Acconeer extends distributor agreement with Restar to include the Americas

Acconeer has extended the agreement with Restar Electronics Corporation to include the Americas. Since July 2019 the two companies have a distributor agreement for the Japanese market, and the decision to extend it to the Americas comes as a natural result of the good progress seen in Japan.

Lars Lindell, CEO Acconeer, comments: "Since we signed a distribution agreement for Japan with Restar Electronics Corporation in July last year we have seen good progress on the Japanese consumer electronics market. Now we are happy to take the next step in the collaboration and extend the coverage to the Americas, to be able to support more customers in the region."

Hiroshi Yajima, President of Restar Electronics Corporation comments: "We have made significant progress in introducing Acconeer's technology into the Japanese markets over the past year, and we are thrilled to expand our efforts into the Americas region. We look forward to our continued partnership with Acconeer as we continue to promote their solution to an even wider range of customers."
